

Comagine Health and State HIT Plan Goal 4

Sarah Woolsey, MD, MPH
Comagine Health,
Utah Medical Director

Qualis Health & HealthInsight
have joined forces to do great things.

Comagine
Health

Together, we're reimagining health care.

Goal 4: Support Innovation and Applied Research to Efficiently Implement Statewide Health IT Initiatives

Objectives:

- 4A.** Promote collaborative innovation and research to advance implementation, utilization, and improvement of health IT in public, private, and academic settings
- 4B.** Broaden statewide partnership and engagement in implementing the Utah HIT strategic plan
- 4C.** Disseminate evidence-based best practices to enhance statewide adoption of technology solutions

Utah Partnership for Value-driven Health Care (UPV)

- Community collaborative
- Comprised of health care purchasers, payers, providers and the public
- Shared strategies
 - Transparency (cost and quality)
 - Addressing variation
 - Community approaches to system improvement
 - Patient/family engagement

Current UPV Workgroups

- Advance Care Planning Advisory Group
- Bringing Utah's Patient Voices to Research
- TAG - Transparency Advisory Group
- Patient and Family Engagement
- Utah Action Coalition for Health (nursing workforce)
- Affordability Initiative

<https://healthinsight.org/utah-partnership-for-value-driven-healthcare>

Advanced Care Planning Workgroup

- Empower patients and families to engage in informed end of life conversations within families and providers
- Provide training to providers to facilitate these discussions and integrate documentation of the discussion into provider-workflow utilizing a clinical decision support system
- Enhance the portability and accessibility of documented preferences, Provider Orders for Life Sustaining Treatment (POLST) and Advance Directives, at the time of need using a secure electronic process
- ACP Summit in Salt Lake City, September 2019

Patient and Family Engagement

Patient and Family Engagement

- Leveraging the contribution of Patients and Families in Utah
 - Spread use of Open Notes concept
 - Quality improvement intervention co-design, patient review of concepts and products
 - Advance co-design in local research

Bringing Utah's Patient Voices to Research

- Foster meaningful community member/researcher relationships
- Disseminate patient centered outcomes research locally
- Enhance collaboration for successful awards

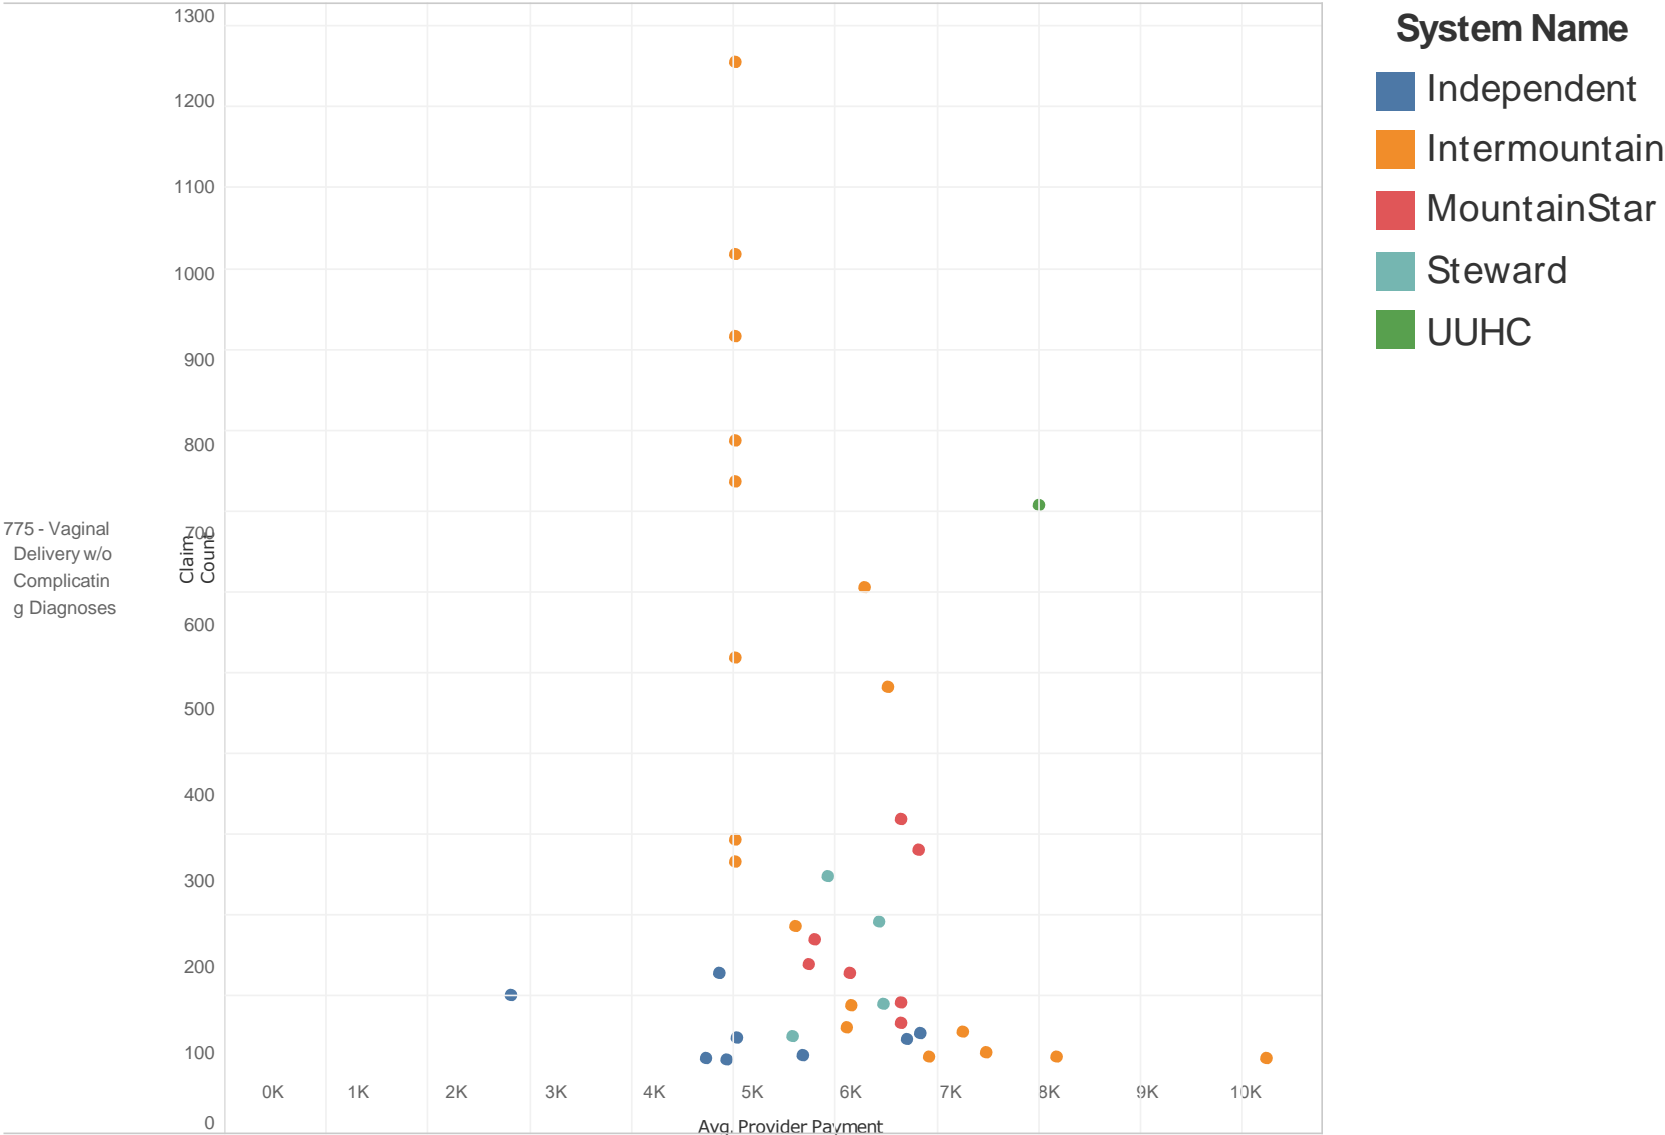

Transparency

2017 Utah Provider Payment Comparison: Hospital Inpatient MS-DRG

- Includes 25th, 50th and 75th percentile "total provider payments" for inpatient MS-DRGs for hospitals in Utah

<https://opendata.utah.gov/Health/2017-Utah-Provider-Payment-Comparison-Hospital-Inp/8hrg-mh67>

Cost vs Claim Count: By System Name MS-DRG 775

Average of Provider Payment vs. sum of Claim Count broken down by MS-DRG/Description. Color shows details about System Name. Details are shown for Provider Other Organization Name. The data is filtered on Msdrgr, which keeps 775.

2016 Clinic Cost of Care and Quality Comparisons for Clinics with Five or More Service Providers

Provider	Cost Measure	Cost Index	Quality Measure	Rate	Quality Measure 1	Rate 1	Quality Measure 2	Rate 2
ALPINE INTERNAL MEDICINE	TCoC	0.944	Breast Cancer Screen	0.67	A1C Testing	0.69	Medical Attention for Nephropathy	0.78
BRIGHAM MEDICAL CLINIC, INC.	TCoC	1.153	Breast Cancer Screen	0.57	A1C Testing	0.74	Medical Attention for Nephropathy	0.87
SPANISH FORK CLINIC	TCoC	0.925	Breast Cancer Screen	0.57	A1C Testing	0.9	Medical Attention for Nephropathy	0.98
CEDAR RIDGE FAMILY MEDICINE	TCoC	1.122	Breast Cancer Screen	0.71	A1C Testing	0.84	Medical Attention for Nephropathy	0.8
REVERE HEALTH PROVO CLINIC	TCoC	1.215	Breast Cancer Screen	0.72	A1C Testing	0.88	Medical Attention for Nephropathy	0.92
COPE FAMILY MEDICINE LC	TCoC	1.008	Breast Cancer Screen	0.71	A1C Testing	0.97	Medical Attention for Nephropathy	0.91
COPPERVIEW MEDICAL CENTER, LLC	TCoC	0.904	Breast Cancer Screen	0.53	A1C Testing	0.9	Medical Attention for Nephropathy	0.88

Current Transparency Activities

- Transparency Advisory Group choosing three new measures for Physician Office Quality Transparency (published on 2017 data July 2019)
- Supporting Health Data Committee as we develop a consumer facing website with cost data (HB 178 Transparency Website Amendments) and as we publish cost for common procedures

Affordability

Affordability Priority Work Areas from Boot Camp from April 2018

1. Develop a cost and quality transparency website for consumers
2. Conduct an assessment of prevalence and spending associated with low value care in Utah
3. Bring together data from myriad sources (211 call-in data, HIE data, APCD data and more) to form a comprehensive yet detailed picture of unmet social and medical needs in Utah

Work Progress/Updates

1. Consumer Website: Rep. Brad Daw took leadership on this with HB 178 (passed) to develop a consumer website publishing the median amount paid for at least the top 50 medical procedures.
2. Assessment of Low Value Care: UHPP and Lynn Quincy published data briefs on this topic and presented findings to the Utah State Legislature in February 2019.
3. Comprehensive Database: Committee formed with involved stakeholders (chaired by United Way) to collect various social determinants of health data (211 data), UDOH data and other applicable and available data.

Thank you
